

HELPING THE COMMUNITY LEND A HELPING HAND

**NO ROOF
LEFT
BEHIND™**

CERTIFIED INSTALLER

It's hard to stand by and watch a **good neighbor** deal with **adversity**. And it's even harder to see them face challenges so serious that they can't afford life's simplest essentials, like a protective roof over their head. That's why **Coastal Windows & Exteriors** is proud to be participating in **No Roof Left Behind**, a campaign that gives the community a way to help a family in need by **providing** them the **shelter** they require.

The **No Roof Left Behind** initiative is specially designed to help communities support a local family in need. Get involved by nominating and voting for your neighbors to help select the family most in need of a new roof. **Coastal Windows & Exteriors** takes care of the rest by working with our dedicated industry partners to provide and install a new roof to that family in need.
