**City of Beverly
Notice of Public Hearing
FY 2016 Mass. CDBG Program Application
Thursday, Jan. 14, 2016**

The City of Beverly will hold a public hearing at 6:30 PM, Thursday, January 14, 2016 at the Beverly Public Library, 32 Essex Street. This hearing is intended to provide citizens the opportunity to comment on the City's proposed projects and activities to be included in the City's FY 2016 Massachusetts Community Development Block Grant (CDBG) application. The priorities the City of Beverly plans to identify in the CDBG application, based on community input, are housing rehabilitation, infrastructure improvements and public social service programs that benefit the City's low and moderate-income population. The proposed area for these activities is the Gloucester Crossing neighborhood. Any person or organization wishing to be heard will be afforded that opportunity. For more information regarding the FY 2016 Mass. CDBG application, contact Aaron Clausen Director, Planning and Community Development at (978) 605-2341. The meeting room is accessible for the mobility impaired. If you require other accommodations please contact the City of Beverly's Community Development office (978-605-2382)
